YEI's Antelope Point Industries Partners with Inspirational Décor

Prescott Valley, Arizona – Yavapai Exceptional Industries announces their packaging and shipping partnership with Inspirational Décor of Phoenix. Antelope Point Industries (API), the 7 year old Prescott Valley satellite of YEI, is located on five acres originally donated by the Fain Signature Group. Access to the site is provided by Betterbuilt Aluminum, one of YEI's charter customers. The only nationally accredited rehabilitation facility located in Northern Arizona, the 6600 sq. ft. Antelope Point shop is a part of the Yavapai Exceptional Industries' production facilities suite. YEI has provided packaging, shipping, and manufacturing solutions for their many business partners for 32 years.

Helping spread the Word is Inspirational Décor's mission. Their product line shipped throughout the United States and Canada from the API's Prescott Valley plant.

For those used to searching through stores, wallpaper shops and online for Christian-themed designs to incorporate into home or church, this company provides a great solution. *Biblical Borders*™ products consist of a beautifully designed collection of pre-pasted wall borders enhanced with scripture or a biblical theme.

Patterns include contemporary, country, Victorian and traditional styles for every room in the home, office or church. The children's collection includes borders for infant, and toddler, and teenager's rooms. In addition, the company works with homeowners, interior decorators, church members, or pastors to create customized *Biblical Borders*™ designs. Inspirational Décor also has plans to broaden the *Biblical Borders*™ line to include Spanish translations of their standard and custom verses.

No newcomer to serving the Christian community, Inspirational Décor was founded as a wholesaler/manufacturer 18 years ago in Minnesota, under the name Sowers of the Seed. Originally, the company launched their line of beautiful borders featuring Scripture. The company later relocated to Arizona and simultaneously underwent a name and ownership change. Wallpaper borders, enhanced with Scripture or a Biblical theme, remain their core product.

The company recently expanded their product line to include *Scripture Without Borders*™, an exciting and unique way to celebrate spirituality while enhancing the look of any room. This product enables Christians to personalize their homes by adding their favorite Scripture or verse to walls, windows, doors or any other surface area, in colors that coordinate with existing décor. The verses are both easy to install and easily removed. Therefore, they are great for temporary situations, such as birthday celebrations, holidays and other special occasions.

As part of a commitment to solely handle products which embody Christian values, the ©Disney Home Collection of Borders and other carefully selected fine items are also available via the company's Web site.

As Joseph, the new owner says, "for years Inspirational Décor was the 'best kept secret' in the Christian Community, and now Christians are spreading the word about us. We appreciate them helping us help others spread HIS word while building our business." The company is proud to be using API's production technicians for their fulfillment and shipping needs. This partnership assures Inspirational Décor's customers that outsourcing means handled WITHIN THE USA.
